

EG SYSTEM SNC

EG SYSTEM COMPANY LEADER IN EUROPE IN PRODUCTION OF SUPPORT FOR KNIVES.

EG SYSTEM SNC present at the GRAFITALIA produces, sells and installs programmers for knives.

EG SYSTEM exhibited models of programmers EG CONTROL :

MINI 2 N the smallest of the series, simple and economical for small knives format.

ST GRAFICO, the programmer IMQ certificate as part of security for the cutting equipment to complete all requirements, the one with the best value for money.

GRAFICO PC TOUCH the real novelty of the top series, equipped with a modern touch screen, has the ability to be programmed by or barcode scanners, linked to production control or printer and can be planned for the management of an automatic discharge.

All our programmers are complete with serial, which allows among other things, they can receive programs from cuts' office with a software designed by us, or you can share with other knives or create on the computer business, an archive programs virtually unlimited.

EG SYSTEM will also accessories that use of knives in the review :
engines, barriers safety, cabinets dedicated and protective casing.
