

SICAD SPA

EUROGRAPHIC RANGE: DOUBLE-SIDED TAPES FOR FLEXOGRAPHIC PRINTING.

Sicad S.p.A has been engaged in designing, producing and marketing self-adhesive tapes, under the brand "Eurocel", over the last 35 years. Sicad's products cover a wide range of applications.

The production of self-adhesive tapes with various adhesive structures (synthetic rubber-hot melt, natural rubber-solvent based, water-based acrylic, solvent-based acrylic and silicon based adhesives) is carried out according to the UNI EN ISO 9001:2000 standards in Sicad's headquarters in Uboldo (VA), Italy. The premises cover an area of more than 90,000 sqm and Sicad's team, which comprises of 275 members of staff, contributes to the careful manufacturing process whilst upholding the maximum respect for environment. With the support of subsidiaries in France, South Africa, Brazil and Croatia, Sicad Group is present today everywhere and is a synonym of high quality products, recognized world-wide.

During the Converflex 2009 fair, Sicad intends to introduce a selection of products pertinent to the Technical Tapes Range: The Eurographic series.

The Eurographic series includes double-sided tapes which have been specifically created for the Flexographic sector, for stereo mounting applications:

"cushioning" tapes, constructed using a foam carrier and various adhesive properties for many types of printing processes;

"rigid" tapes, made with film carrier and different types of protective liner.

The Eurographic series has been developed thanks to the daily dedication and commitment on Sicad's part and also to the contribution of our Partners who have kindly offered their expertise.
