

TB SNC DI BRANDI VITTORIO & FIGLI

NOTICE ABOUT PREVIEW TECHNOLOGICAL

Since 1977 TB SNC is carrying out the industrial activity of design , realization and marketing of little metallic accessories for industries mainly producing articles in leather or bookbinding.

In 1988 a completely new activity was hold on in the company.

This new activity starts with type of machines studied and realized by themselves.

Foamboards (board matched with foam) realized in different ways (in dimensions or in sheets) were the final products sold to companies producing covers for agendas, books and photo's albums .

During the last five years this new activity became very important for TB and at the moment we are exporting foamboards in the most of outside countries in the world.

All articles in TB production as a complete range of iron and brass metallic accessories, labels, clips for diaries and metallic bodies for articles in leather goods and for writing desk are shows in GRAFITALIA stand with a large range of foamboards.
